## Shortform to Congressperson

**Subject:** Urgent: Support the Impeachment of President Donald J. Trump

Dear [Congressperson's Name],

I urge you to support and pursue the impeachment of President Donald J. Trump. Since taking office, he has repeatedly abused his power, undermining the rule of law, separation of powers, and democracy. His actions demand immediate accountability.

President Trump fired 17 inspectors general without cause, weakening government oversight. He revoked security clearances of over 50 former intelligence officials and removed protections for political opponents, setting a dangerous precedent for retaliation. His executive order attempting to end birthright citizenship was swiftly blocked as unconstitutional. He declared a national energy emergency to bypass environmental laws, benefiting industry donors.

Most egregiously, he pardoned 1,500 individuals involved in the January 6 attack, including extremist group members, signaling tolerance for anti-democratic violence. His administration has also politicized the federal workforce, dismantled diversity programs, and illegally withheld \$3 trillion in federal funds, violating the Impoundment Control Act.

These actions demand impeachment. I urge you to stand up for democracy and support efforts to hold the president accountable.

Sincerely,

## **Longform to your Congressperson to pursue impeachment**

**Subject:** Urgent: Support the Impeachment of President Donald J. Trump

Dear [Congressperson's Name],

I am writing to you as a concerned constituent to urge you to support and pursue the impeachment of President Donald J. Trump. Since taking office on January 20, 2025, President Trump has engaged in multiple abuses of power that undermine the rule of law, the separation of powers, and the democratic principles of our nation. These actions warrant immediate investigation and removal through impeachment. Below are key examples of his abuses:

**1. Mass Dismissal of Inspectors General**

President Trump fired 17 independent inspectors general from various federal agencies without following the legally required 30-day notice to Congress. Inspectors general serve as nonpartisan watchdogs to prevent corruption and abuse within government agencies. Removing them without cause weakens government oversight and enables unchecked misconduct.

**2. Retaliatory Revocation of Security Clearances**

President Trump revoked the security clearances of over 50 former intelligence officials, including individuals who had spoken out about his previous administration's actions. Additionally, he removed security protections for former officials like Mike Pompeo and John Bolton, both of whom face credible threats. These actions appear to be motivated by political retribution rather than national security concerns, creating a dangerous precedent for silencing dissent.

**3. Unconstitutional Attempt to End Birthright Citizenship**

The president signed an executive order attempting to revoke birthright citizenship for children of undocumented immigrants. A federal judge swiftly blocked this move, declaring it unconstitutional under the 14th Amendment. The executive branch does not have the unilateral power to amend the Constitution, making this an outright abuse of authority.

**4. Declaring a National Energy Emergency for Political Gain**

On his first day in office, President Trump declared a national energy emergency, allowing him to bypass environmental regulations and push through fossil fuel projects with minimal oversight. This declaration was not based on any genuine crisis but was instead a political maneuver to dismantle environmental protections, favoring industry donors over the public good.

**5. Mass Pardons for January 6 Insurrectionists**

The president issued pardons to approximately 1,500 individuals convicted or charged in connection with the January 6th attack on the U.S. Capitol, including members of extremist groups such as the Proud Boys and Oath Keepers. This undermines the rule of law and effectively signals that violent attempts to overturn democratic elections will be tolerated, if not encouraged.

6. **Overhaul and Politicization of the Federal Bureaucracy**

The administration implemented a federal hiring freeze, forced federal employees to return to in-person work, and reclassified positions to make terminations easier. Additionally, it dismantled diversity, equity, and inclusion (DEI) programs, removing employees associated with these initiatives. These moves appear to be aimed at silencing opposition and consolidating power within the executive branch.

7. **Illegal Impoundment of Federal Funds**

President Trump attempted to freeze over \$3 trillion in legally appropriated federal funds, including Medicaid and environmental initiatives. This action, which led to significant disruption in essential services, is a violation of the Impoundment Control Act, as the president does not have the unilateral authority to withhold funds appropriated by Congress.

These actions represent a clear pattern of overreach, retaliation, and disregard for the rule of law. They undermine democratic governance and threaten the stability of our nation. As my representative in Congress, I urge you to support impeachment proceedings against President Trump and to ensure that the Constitution is upheld.

Our democracy is at stake, and history will judge those who either stood against these abuses or remained complicit through inaction. I urge you to take decisive action and hold the president accountable.

Thank you for your time and service to our country. I look forward to your response and to seeing Congress take the necessary steps to protect our democracy.

Sincerely,

## **Longform to your Senator to encourage their House colleague to pursue impeachment**

**Subject:** Urgent: Support the House's Efforts to Impeach President Donald J. Trump

Dear Senator [Last Name],

I am writing to you as a concerned constituent to urge you to support and stand with your House colleagues in their efforts to hold President Donald J. Trump accountable for his abuses of power. Since taking office on January 20, 2025, President Trump has engaged in a series of actions that undermine our democracy, weaken the rule of law, and threaten the stability of our nation. His disregard for constitutional principles demands immediate action, including impeachment and removal from office.

Below are just some of the most egregious abuses of power committed by President Trump:

- 1. Mass Dismissal of Inspectors General**

President Trump fired 17 independent inspectors general without proper notice to Congress, eliminating key nonpartisan watchdogs responsible for overseeing government integrity. This move cripples oversight, allowing corruption and mismanagement to flourish unchecked.

- 2. Retaliatory Revocation of Security Clearances**

The president revoked the security clearances of over 50 former intelligence officials and removed protections for individuals facing credible threats, such as Mike Pompeo and John Bolton. These actions appear politically motivated and set a dangerous precedent for silencing critics through executive power.

- 3. Unconstitutional Attempt to End Birthright Citizenship**

President Trump issued an executive order attempting to strip birthright citizenship from children of undocumented immigrants, directly violating the 14th Amendment. This overreach of executive authority was immediately blocked by the courts, demonstrating his continued disregard for constitutional law.

- 4. Abuse of Emergency Powers for Political Gain**

On his first day in office, President Trump declared a national energy emergency, allowing him to bypass environmental regulations and fast-track fossil fuel projects. This declaration was not based on any legitimate crisis but served as a political maneuver to roll back environmental protections and benefit industry allies.

- 5. Mass Pardons for January 6 Insurrectionists**

President Trump pardoned approximately 1,500 individuals convicted or charged in connection with the January 6th attack on the U.S. Capitol, including members of extremist groups like the Proud Boys and Oath Keepers. These pardons undermine the rule of law and signal that violent attempts to overturn democracy will be tolerated under his leadership.

- 6. Overhaul and Politicization of the Federal Bureaucracy**

The administration implemented a hiring freeze, forced federal employees to return to in-person

work, and reclassified positions to make terminations easier. It also dismantled diversity, equity, and inclusion (DEI) programs and removed employees associated with these initiatives. These actions indicate an effort to consolidate power and purge opposition from the federal workforce.

7. **Illegal Impoundment of Federal Funds**

The president attempted to freeze over \$3 trillion in legally appropriated federal funds, affecting critical services such as Medicaid and environmental programs. This clear violation of the Impoundment Control Act demonstrates his willingness to ignore congressional authority and disrupt essential government functions for political purposes.

Each of these actions represents a serious breach of presidential authority and a threat to the integrity of our government. As the House moves forward with impeachment proceedings, I urge you to stand with them and publicly support their efforts to uphold the Constitution and protect our democracy. The Senate must not allow these abuses to go unchecked.

This is a defining moment for our nation, and history will remember those who chose to defend democracy and those who chose to remain silent. I implore you to take a stand and ensure that President Trump is held accountable for his actions.

Thank you for your time and for your commitment to upholding the Constitution. I look forward to your response and to seeing the Senate fulfill its duty in this critical moment.

Sincerely,
